## Palo Duro, Ranches Scorched

More than seven sections of land were burned in a giant prairie fire that swept through the south end of Palo Duro Canyon and on over the rim early Sunday afternoon.

Most of the land burned was on the Harrell and Reynolds ranches, and in the south part of the state park.

Canyon firemen received the first alarm shortly after noon Sunday. They were joined at the canyon later by volunteer men and a weasel from Amarillo civil defense units. The Canyon weasel was also pressed into service to carry men into the areas in the canyon to set backfires and fight the main fire with tow sacks and brooms.

Fire Capt. Joe Rice said trucks and hose were virtually useless in fighting the fire through the rugged country.

Firemen stayed at the scene until past midnight Sunday, then returned to the battle Monday and Tuesday. Rice and other firemen flew over the scene in an airplane Tuesday morning, then used the weasel to go back into the area where patches were still smoldering.

Rice said it was believed that only grass, trees and fences were burned in the blaze. He said no livestock was known to be in the area.

Trees and grass still burning late Tuesday were left to burn themselves out, he said.

The fire started too far south to damage any public facilities in the state park area.

## Baseball Tryouts Saturday

"Play Ball" will echo across the Canyon Little League ball park Saturday at the annual baseball tryouts for local youngsters.

Managers of the four Randall County Little League teams will begin tryouts at 1 p.m. Saturday for the 10-year-old boys wishing to play ball this summer.

The 11-year-olds will tryout at 2 p.m., and the 12-year-old boys will begin at 3 p.m.

Coaches will have different groups of boys during the hour allotted for each age group.

Sign-up cards have been given to 8 and 9-year-old boys for the minor league ball clubs.

Ball games will begin May 15-16 with single games and double-headers, according to Bill Lee, president of the Randall County Little League Association.

Ball games for the minor league players will begin at the close of school late in May.

Mrs. C. B. "Brownie" Cable is shown here with her two youngest children, Hope, 6 years old, and Howard, 14 months. The other five children were in school when this picture was taken.

## Canyon Raises Fund To Keep Family Together

A group of Canyon folks are trying to help Mrs. C. B. "Brownie" Cable keep her family of seven children together.

The Cable family's luck has been bad for the past several years. In January of 1956, Sandy, then 2 years old, tried to pull a shotgun from the family car.

The gun went off and Sandy lost an arm. Through help of the Canyon Lions Club, Sandy was outfitted with an artificial arm and now is able to perform with it almost as though it were a natural limb.

March 31, Sandy's dad, Brownie Cable, was taking the same gun from the trunk of his car when the gun fired and Brownie was fatally wounded.

He died two weeks ago in an Amarillo hospital.

Mrs. Cable will draw social security, but a place to keep a family of seven and remain within the limits of her budget is a problem. Mrs. Cable is unable to take a job. She has a big one at home just caring for seven children ranging in age from 14 to 14 months.

Five of the seven youngsters are enrolled in Canyon schools. The children are Nelda, 14 years old; Martha, 12; Gladys, 11; Sandy, 10; Dusty, 8; Hope, 6; and Howard, 14 months.

Jack Ziegler, Virgil Slentz and Howard Rogers have an old three bedroom house which they will donate. A group of Canyon people working on the project hope to raise about \$2,000 or equivalent.

A lot is needed in the west or northwest part of Canyon. The group hopes to get the house moved onto the lot and repaired for the family.

Once this is done the house will be deeded free and clear to Mrs. Cable. The group thinks Mrs. Cable will be able to rear the family and keep it together if this is done.

"They're not going to make it unless we do something," Slentz declared. "If we don't put this across those children could wind up in an orphan's home."

Any contributions should be mailed or taken to Bill Wilson, Randall County justice of the peace, Randall County Courthouse, Canyon, Texas.

## Trackmen Win Second Place

Canyon High School's track team came in second in the District 2-AA track meet here Saturday, and nine boys qualified for the regional meet to be held April 24 and 25 in Lubbock.

First place honors went to Wayne Brewer in the 220-yard dash and to George Cox in the pole vault. Both the mile relay and the 440-yard relay teams came in second. Jon Low came in second in the 880-yard run, and Bobby Evans placed second in the pole vault. Third places went to Tommy Sanford in the 440-yard dash, followed by Randy Buttrill in fourth place; Jody Richardson in the high jump, followed by Dennis Haley and Cox; Steve

Burgess in the discus, followed by Jody Sheets. Haley also placed fourth in the broad jump.

Those who will be representing CHS in the regional meet will be Low, Brewer, Cox and Evans and members of both the relay teams. In order to qualify, boys must place in either first or second positions in the district meet.

Coach Jeep Webb said he was pleased with the showing his boys made in the event. Top team in the meet was Tulsa, who had 123 points compared to Canyon's 115. Other district teams in the order in which they ranked were Lockney, Floydada and Abernathy.

## City Commissioners Increase Lighting

### Two Mates Too Many

Charges of bigamy were filed last week against 31-year-old Ruth Lynn Tadlock of 2920 Ricks in Amarillo.

Mrs. Tadlock is charged with having been married to and living with two men at the same time. The charges were filed in Randall County by Amarillo Police.

The two men she is supposed to have been married to are Robert D. Tadlock and Iva Terrell Manning.

According to police, Manning filed the complaint after Tadlock had moved into the home at 2920 Ricks. Police said Tadlock first identified himself to Manning as Mrs. Tadlock's brother. They said that Manning, however, found out the discrepancy after seeing one of Tadlock's identification cards. It was then that the two marriages came to light.

Mrs. Tadlock was taken into custody by police. She was arraigned before Justice of the Peace W. W. Hancock in South Amarillo and later released from Randall County Jail here after posting \$1,000 bond.

She is scheduled to go before a Randall County grand jury April 27. A trial date, if the case receives a true bill, will not be set until September.

### CHS Band Gets Top IL Rating

Canyon High School band won sweepstakes, and the junior high band received two superior ratings at the Interscholastic League band contests held last week at West Texas State University.

The high school band received a one, or superior rating, in concert, sight-reading, and marching to earn the sweepstakes award. Concert and sight-reading contest was held Thursday, and the marching competition was conducted October 22.

The junior high band received first division ratings in both concert and sight-reading, also, but did not enter marching competition. Superior rating in all three contests is necessary for a sweepstakes win.

Judges' comments for the two bands included such remarks as, "promising group of players (junior high school band)", "a well taught group", "very commendable work at the junior high level", "group has nice style, plays musically", "nice job reading", "remarkable clarity for large group", "fine restraint, accuracy, style, character and sound", and "really enjoyed this band. This is a fine band. Strive for perfection of detail throughout."

Band director is Lee Boyd Montgomery, Jr.

Canyon City Commissioners approved an increase in city lighting fixtures Monday night.

The added fixtures are part of an upgrading project for street lighting within the city. Commissioners, under the direction of mayor Clarence Eugene Thompson, voted to add or improve approximately 50 fixtures throughout the city.

City manager Dewey Bryant told commissioners the added cost per month would be approximately \$47.63. The city is presently paying \$720 a month for lighting.

Lighting project includes ten fixtures to be added or power increased on 25th Street from Fifth Avenue to Fourteenth Avenue. Lights will also be added on Second and Third Avenues from 12th Street to 21st Street.

Plans also include replacing six fixtures on 10th Street in front of the Santa Fe depot with three 7,000 lumens fixtures.

Three fixtures will also be placed in the 1600 and 1700 blocks of Fifth Avenue just east of the downtown square. Also on 15th Street the city voted to increase the power on fixtures in the south part of town on the corners of Sixth, Seventh and Eighth Avenues.

On 19th Street four lights will be increased to 7,000 lumens on Fifth through Eighth Avenues.

Three 20,000 lumen fixtures will be added on the Hereford Highway at 13th, 14th and 15th Streets.

In other action Monday night the commissioners passed a city ordinance on the third reading granting Bill Taylor a franchise to operate a taxicab service. Ordinance will become effective after the rate schedule and the insurance documents have been approved.

City dads also discussed a program for repaving several city streets. They voted to pay for the center 20 feet of paving on streets which were paved under the 1955 street paving program. Property owners in blocks being repaved will be responsible for additional width of the street and curb and gutter.

Commissioners also passed an ordinance on the first reading annexing 52.44 acres of land south of the present city limits. The land adjoins Hidden Valley Addition on the south edge of the city.

Lewis Construction of Dumas was awarded a seal coating bid for \$6,438.12. The bid was for 12 1/2 cents per square yard on single seal coating and single strip seal.

A claim by Doug Rittenberry for fire damage sustained to grass land on his ranch was discussed during the meeting. Rittenberry asked commissioners in a letter for four years damage to pasture land which is adjacent to the city dump. Rittenberry has asked for \$5 per acre for damages to his land for four years.

Commissioners agreed to give \$5 per acre for two years damage. (See CITY, Page 7)

## Matsen Joins WT Music Staff

A new assistant professor of music, who will conduct the University Symphony Orchestra and teach classes and lessons in string instruments, will assume duties Sept. 1 at West Texas State University.

He is Theodore W. Matsen, a violinist who is currently assistant concertmaster of the Milwaukee Symphony Orches-

tra. He was formerly concertmaster and assistant conductor of the Denver Community Arts Symphony Orchestra, concertmaster and soloist with the Colorado Concerto Ensemble, and concertmaster and soloist with the Greeley, Colo., Philharmonic Orchestra.

Matsen will come to Canyon May 22 to be presented in a concert in a benefit for a music department scholarship, according to Dr. John E. Green, head of the department.

Matsen holds the B. A. degree from Colorado State College and the M. A. from the State University of Iowa. He was an instrumental music teacher in Denver for three years, and has taught at the University of Iowa and the University of Alaska. He is married and has two children.

### Absentee Balloting Begins

Absentee balloting began this week in the County Clerk's office.

The deadline for voting absentee is April 28.

Balloting may be done in person at either the Randall County Court House here or at the South Amarillo Annex office. Those who are unable to go to either of the two offices may write to the clerk's office for an application. After the application is received, it should be filled out and returned to the clerk's office along with the voter's poll tax. A ballot and his poll tax will then be mailed back to him.

## Grain Figures Announced

Randall County ASCS office this week announced final figures for Randall County participation in the 1964 feed grain program.

The county has 889 feed grain farms in which 137,386 acres of farm bases are established, according to Jerrell Shaw, office manager.

Shaw said these farms are eligible to participate in the program based on feed grain acreage planted on them in 1959-60.

Operators of 604 farms in the county signed up to participate on 115,059 acres, according to Shaw. Producers have designated 49,248 acres as diverted acre, to be devoted to soil conserving use.

These figures indicate that 84 percent of the eligible feed grain acreage in the county is in participation and that producers designated to divert an average of 43 percent of their farmland base for 1964.

Nationally producers have designated 34.3 million acres for diversion this year as compared to 25.7 million acres in 1963.

Shaw said information on newly passed cotton and wheat legislation will be released through his office as soon as it is available.

CLARENCE EUGENE THOMPSON

Don Breitling, left, and Jim Whinnery received top awards from their teammates Tuesday night at the annual Canyon High School All-Sports banquet. Breitling was presented the Outstanding Player Award from members of the basketball team. Whinnery is shown with the Fighting Heart Award for his work with the football team. Both boys played football and basketball this year.

## Whinnery Gets 'Fighting Heart'

Jim Whinnery, son of Mr. and Mrs. John Whinnery, hobbled to the head table on crutches Tuesday night to accept the coveted Canyon Eagle Fighting Heart Award.

Jim was selected by his teammates for his tenacity and courage in both football and basketball. The occasion was the annual CHS All-Sports banquet.

Young Whinnery played through both grid and cage seasons with a game knee, waiting until the final whistle of basketball gave his team the state championship to go into the hospital for a needed operation.

Outstanding basketball player, also selected by the team, was Don Breitling. Breitling, popular with fellow students at CHS, starred on both basketball and football teams.

Karen Irwin was crowned football queen and Carol Brown was crowned basketball queen. Skip Moore was named basketball king by the girls' team.

All CHS athletes were introduced. The banquet honored the state championship basketball team. Coach Allen Simpson, "Old Stoney Face," got a

standing ovation as he arose to introduce his champions.

Some 400 persons heard Tom Coleman, athletic director at Georgia Tech, laud sports on the American scene.

"Colleges are the show cases of athletics," Coleman declared. "It is in the high schools, grade schools and sandlots that the important job is done."

Coleman said one important role of athletics is to bring communities together. "It gives everyone common ground," he declared. "Everyone including the doctor, the lawyer, the

druggist, and the town drunk can talk about their team."

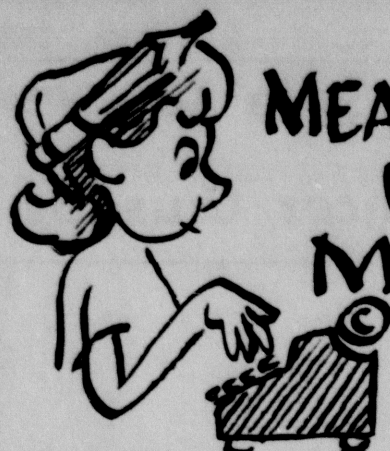

Coleman said athletics are important to the nation.

He pointed to a famous quotation by General Douglas MacArthur:

"On the fields of friendly strife are sown the seeds that on other fields will bear the fruits of victory."

To those who have been honored in athletics this year Coleman had this to say, "To those to whom comes the greatest honors also comes the greatest responsibilities."

## MEANDERING WITH MARGO

Congratulations go out to the entire Canyon High School student body this week.

Students have been entered in sports, literary, speech, and band events for the past several weeks. This week results went high.

The CHS band received a sweepstakes award last Thursday as they played their way to a first division in both sight-reading and concert. They won a first in marching last fall, and the three first places automatically gave them the sweepstakes rating.

The speech group traveled to Floydada last week and won district in the one-act play competition with their selection of scenes from "Othello." Mrs. Lee Foster, director of the play, will take the cast to Lubbock April 25, for the regional meet.

The entire basketball team received recognition Tuesday night at the annual all-sports banquet. And individual members of both the basketball and football teams received a special pat on the back from their teammates.

Jim Whinnery was voted Fighting Heart award winner

## by Troy Martin FROM THE CANYON RIM

We talked to Senator Ralph Yarborough by telephone one day last week.

We were trying to extract from the Senator a position on the Civil Rights Bill. He wouldn't extract.

We have an idea that the Senator, like a lot of other politicians in Washington, was shaken by the vote in the Wisconsin primary.

We asked the Senator a direct question.

"How do you stand on the Civil Rights Bill passed by the House?"

His answer: "That bill may never come before the Senate."

The Senator did say that he expects a lot of amendments to the bill before it can be passed by the Senate.

How sharper than a serpent's tooth it is to entertain a thankless newspaperman.

Lyndon and Lady Bird invited the press. They threw a whaling. The press got the grand tour of the LBJ Ranch.

The press went back to their typewriters and wrote about Lyndon and Lady Bird driving at high speeds on country roads around the ranch...driving with one hand and sipping cold beer from paper cups.

We can't help sympathizing just a little with the Johnsons. The press corps should have put the first family on notice if they intended to write about everything that happened during the visit to the ranch.

On the other hand, the Johnsons ARE the First Family and should have known that anything they do or say is front page stuff.

Besides that, the fact remains that if they did nip while driving they broke the law and this is not a good example for the First Family to set for the rest of the country.

So we are playing Texas Tech again. We had known the story was brewing for some months. We laid off developing it at the specific request of Athletic Director Frank Kimbrough.

We understand that the story was broken on weekend at the request of daily newsmen. It could just as easily have been broken on a Thursday.

This wouldn't have inconvenienced the dailies and would have been a tremendous piece of public relations with the some 70 weekly newspapers of the area served by Texas Tech and West Texas State.

We hope West Texas State football fans will realize that the defeat of the varsity by the alumni last Friday night still is a tribute to the coaching ability of Joe Kerbel.

In effect, Kerbel was playing Kerbel.

The Porter Campbells, the

Farmer Browns and the Frank Bounds have just returned from Graham Lake. They reported a good catch.

They took bass and crappie. It's fishing time again.

The crime rate across the country is rising. There is a tendency to tolerate criminals. Many states have done away with the death penalty.

As a result, crime has begun to pay as never before.

As a part of the "do gooder" attitude that has permeated this country, good people tend to feel sorry for the criminal.

It is a statistical fact that crimes of violence are higher in states without the death penalty.

Officers carrying out their duties of making arrests are especially vulnerable in states devoid of the death penalty.

The criminal figures that he can shoot down an officer and possibly get away. If he's caught and gets a stiff prison term there's always the possibility of parole.

Fear does play an important part in law enforcement. It should. The gallant men who guard our homes while we sleep should be reassured with the certain knowledge that if they are shot down by a felon that felon most certainly will pay with his own life.

Capital punishment, when the crime warrants it, is absolutely necessary if society is to protect itself.

## 3 CHS Girls To Compete For Award

Dr. J. A. Hill, president emeritus of West Texas State University, spoke to members of the Canyon Study Club Tuesday evening in the home of Mrs. Lynn Blewett.

Dr. Hill's topic, "Pioneer Personalities," was centered around Canyon and Randall County and early pioneers of the area. The club will present a book to the Randall County Library in Dr. Hill's name.

In association with National Library Week, the club voted to donate a \$100 check to the building fund for a new library in Canyon which will facilitate a clubroom. Hostesses from the Canyon Study Club who helped with the open house festivities at the library Wednesday afternoon were Mrs. Dick Dawdy, Mrs. Johnny Raymond, Mrs. Gordon Williams and Mrs. Ronnie Rice.

The club president, Mrs. Gordon Williams, reported on the recent Top of Texas District Convention in Borger and had on display eight awards that the club received at the convention.

Miss Janie Burk, Miss Ann Fisher, and Miss Mary Lou Johnson have been selected as the top three scholarship competitors for a \$150 scholarship which will be awarded to a high school senior attending WTSU.

Miss Burk and Miss Fisher were in attendance at the meeting Tuesday evening. Following an acquaintance period and discussion with the girls, members cast secret ballots to determine the first place winner.

Mrs. Charles Brasher will hostess the May meeting on the 12th of May when members will install new officers at a salad supper affair.

Attending the meeting this week were Mesdames Bob Byrd, Jim Cook, Don Ray, Earl Byrley, Gordon Williams, Roland O'Donald, Charles Brasher, Dick Dawdy, Johnny Raymond, Elton Chambliss, Walter Cranmer, Mrs. Blewett, the hostesses, and co-hostesses, Mrs. Ronnie Rice and Mrs. Dewey Bryant.

The Canyon Capers sponsored a graduation dance on Monday night at the Junior Livestock Building in Canyon to honor new square dance couples who have completed the springless-on series.

Certificates were presented to each new couple at the affair and a few novelty initiation numbers were performed by the new couples to test their ability to perform while wearing cardboard boxes as shoes.

"We expect a majority of the graduating couples will become regular members of the square dance club which meets every Monday night," says Bill Clifford, club president.

## Hilltop Views

BY DR. J. A. HILL

A wise historian once said, in substance, that in war opposing nations tend to become alike. Their ideologies, their institutional concepts, their political philosophies, and their cultures tend to take on similar color.

It seems to me that in the current contest between the U. S. and Russia I can see that trend in process. Of course, we are not in all-out war, but few would deny that American freedom is seriously challenged by Russian Communism. In the realm of ideas there is terrific, world-shaking war.

Ideologically speaking each is moving toward the other -- the U. S. becoming more and more totalitarian and Russia yielding slowly to democratic concepts. Today's article is concerned with the changing ideologies and institutions of the U.S. Lack of space forbids the use of more than one example -- the change in our educational system.

The Sputnik almost instantaneously greatly modified our educational objectives. Whereas our public schools at all levels had been founded upon and supported by the concept that all normal children of all the people are educable and that "enlightened mind is the guardian genius -- of democracy --" it is now becoming popular in this country to offer higher education to the intellectually elite. For example, in California, which acknowledges that its system is the best in the U. S., they admit to their nine state universities only those students who are in the top 12 1/2 percent of an accredited high school graduating class. This practice effectively closes the door to thousands who have personality and character qualities that make of them brighter prospects for good citizenship than many in the top 12 1/2 percent. Scholarship alone is no fair criterion for admission to top educational opportunities and no guarantees of useful citizenship in a free society.

The changes that are taking place in our traditional concept of the purposes of education will, if continued, lead us toward a materialism that is based on fear. We are insisting that from bottom to top our public educational institutions shall emphasize curricula that will make our nation impregnable in war. Students that show superior capacity in the mathematical sciences are being subsidized by government to invest themselves to the limit in this area of learning.

Philanthropists, foundations, and states are appropriating vast sums to supplement the Herculean efforts of the national government -- to do what? To train our youth in the manufacture and use of implements of military defense, to launch orbiters no end, and to beat Russia to the moon.

I am not arguing here that this \$50 billion dollar a year extravagance is either unnecessary or unwise. I am only pointing out the fact that our public educational system is drifting away from its Christian idealism and toward a world peace based upon physical or military power.

The reader's attention is further called to the frequent contention that Russian education is superior to our own. Let us remember that theirs is undemocratic, utilitarian, and oriented toward totalitarianism and conquest. Ours is democratic, humanitarian, and oriented toward "peace on earth, good will to men."

If fight we must, let's do it well, but in doing so, let us not yield one inch to the de-civilizing influences of utilitarianism, materialism, militarism, and despotism. The education (not the training) of all the children of all the people is the surest safeguard of the liberties that have placed us in the forefront of the parade of nations. Long live the American tradition that all men are created equal in their rights to an opportunity to make the best of whatever talent a kind Providence has provided them, and it is to the eternal welfare of the American nation to see that every mother's child of them had a chance to develop the best that is in them.

## Mrs. Henry Heads New Happy Club

Mrs. Tom Henry was elected first president of the newly organized Happy Jaycees-ettes at a meeting Tuesday evening in the Happy High School cafeteria.

Other officers elected to head the club were Mrs. Lloyd Venhaus, vice president; Mrs. Bob McDonald, secretary; Mrs. Carol Sims, treasurer; and Mrs. Richmond Payne, secretary.

Members of the new club discussed and made plans for

their 'charter nite' event which will be held during May. They also voted to conduct the Heart Fund Drive in Happy.

It was announced the next meeting will be a membership drive and funnites as members make final charter plans. Canyon Jaycees-ettes are in charge of securing a charter for the new Club which currently has 22 paid members, 1 of those being associate.

Canyon Jaycees-ettes attending the organizational meeting Tuesday evening were Mrs. Nick Dodson, Mrs. Richard Pruett, Mrs. Meade Michael, Mrs. Charles Marshall and Mrs. Carl Miller.

## Delta Zeta Gets Top Award

"Pride of the Province" was an award won by Delta Zeta sorority of West Texas State University at the state conference meeting in San Marcos last week end.

The pledge chapter of Delta Zeta sorority at San Marcos hosted the convention and were installed with full ceremonies as a new chapter at the three-day meet.

Mrs. George Haven of Des

Moines, Iowa, a national chapter advisor, conducted the rush workshop for the convention and Mrs. Larry Frymire, national officer, was in charge of the new chapter's installation.

Jan Mitchell, of the WTSU chapter, presided over a 'model meeting' for the newly installed Iota Alpha chapter.

Attending the convention from the sorority unit at WTSU were Shirley Anderle, president, Shirley Peters, Sydna Taylor, Beverly Peck, Elaine Elliott and Jan Mitchell.

## Brownie And Girl Scout News

**GIRL SCOUTS**  
The summer day camp facilities and date are still tentative according to Mrs. B. J. Ormsby, leader of Troop 9. Nineteen members of Troop 9 were in attendance at their meeting last Wednesday afternoon to turn in their cookie sales sheets and money collected. They also discussed an over-night camp-out party which will be held on May 22 at Camp Kiwanis.

Eva Frank was hostess for Troop 1's meeting last Thursday afternoon as eight Girl Scout cadets spent the session working on advanced badge requirements.

Plans for a dinner April 18th were made at a meeting of Troop 2 Girl Scouts last Friday afternoon. The occasion will be hosted by the troop members for their guests and friends. It will count toward work on their social dependability challenge according to Mrs. Dean Nicholas, troop leader.

Phyllis Hunnicutt was hostess for the meeting attended by 12 girls. Cookie funds and sales sheets were turned in at the meeting.

Saturday, eight senior scouts of Troop 13 made a trip to Amarillo to distribute cases of cookies which were bought by local merchants during the Girl Scout cookie sale. Merchants were responsible for donating a large number of cases of cookies to the children's home and Boy's Ranch according to Mrs. Alfred Daniel, troop leader.

An outdoor cook out for members of Girl Scouts of Troop 7 was held Monday evening with the 30 girls present dividing into patrols to cook their own supper in the backyard of the Girl Scout Hut.

Mrs. Keith Jones, troop leader, was in charge of the event and was assisted by Miss Sharon Vance and Miss Sandy Goss, WT students who are co-leaders for the troop.

# Alums Trounce Buff Varsity

West Texas State University's illustrious alumni proved too much to handle for the 1964 varsity football team last Friday night as they rolled to a 34-0 victory in the annual alumni game.

Taking advantage of varsity miscues, the alums scored in every period except the first to gain their one-sided victory.

Head coach Joe Kerbel, pointing out the fact that the varsity lost the ball 10 times through fumbles, interceptions and other types of excuse-me plays, said, "We expected a lot of mistakes from our young team. We have said all along how green and inexperienced our squad is and Friday's performance bears this out. However, we saw quite a few good things done by the varsity that were not evident to many due to the shoddy ball handling."

The first alumni tally came four plays deep into the second quarter, when Jerry Richardson intercepted a swing pass from halfback James Williams and galloped 84 yards on his way to the other end of the field and a touchdown. Jerry Don Logan converted. Richardson set up still another score in the second quarter by blocking a punt on the varsity 29. On the next play, Mr. Logan did the honors by going all the way. Ollie Ross added the conversion.

Second half scores were added by a Logan-to-Joe Granato pass, a Hoot Gibson-to-Jim Ostrander pass and a pass interception by Jim Dawson.

Russell Mundy, senior fullback from Harrisburg, Pa., led the varsity ball carriers with 48 yards in 12 attempts. Senior Bill Bundy and freshman David Fleming handled most of the quarterbacking chores. Bundy hit on six out of 10 passes.

## 'I Hold The Key'

I am happy to announce to my many interested friends that I have let a contract for a second printing of the above named booklet. It will contain a few corrections and additions but will be essentially the same as the former edition.

The new edition, like the old, will appear in both paper and board backs. The price may have to be a few cents higher. It should be available by July 1, 1964.

The complete sell-out of the former edition and the continued demand from many reactions of the State and Nation lead me to believe that the demand for the new booklet will be brisk.

If you want to be certain to obtain one or more copies it may be advisable to place an order with one of the local bookstores. It is now my plan to autograph all copies as they are received. Cordially yours, J. W. Hill

## Bolivia Counsel At WTSU

"We are trying to get more people to export, and encourage an active tourist program into the United States," Harold M. Young, Bolivia consul of Dallas, spoke Monday in Canyon to West Texas State University students.

The rapid-speaking enthusiastic counsel talked of a definite need for a larger import-export program in the United States.

"We must encourage export trade, one of the best export programs is tourist trade," Young explained.

Young also was optimistic about the present situation in Brazil.

"This new government is very interested in developing a strong financial basis, and this is what is needed in Brazil. With Tom Mann in charge of the Alliance of Progress program, the program will show a great deal of improvement in years to come," he continued.

Young also added that the recent coup in Brazil turned back the communist program several years, which will help the other South American countries in their development.

Young and his wife were in Canyon Sunday and Monday after spending a day in Tulsa. They returned Tuesday to Dallas, where he is with Murray Company of Texas.

The consul served as counsel to Brazil for 12 years before taking the position with Bolivia. He graduated from George Washington University in Washington, D. C. and joined the United States government in commerce department for 15 years.

Since that time, Young has been interested in foreign trade and the government's export and import programs.

# Mrs. A.K. Goodman Gives Chicken Casserole Recipe

BY LORENA MILLER

Mrs. A. K. Goodman, mother of two and long-time teacher of Canyon's elementary students, shares a 'quickie' Chicken Casserole recipe with our readers.

Mrs. Goodman, better known as Martha among friends, was born in Nebraska and grew up on ranches in South Dakota and Colorado. She was the youngest in a family of eight children and attended her first college in Greeley, Colorado.

At the age of 17, Mrs. Goodman was conducting classes in a small country school which consisted of eight grades combined. "In those days, they were in desperate need for teachers--it was during the war, and I had a certificate so I taught," she commented.

"Ken got both of his degrees in Greeley...and after we married and moved to Texas he taught at the West Texas Training School for 25 years until he retired," said Mrs. Goodman.

When the young couple moved to Canyon, Mrs. Goodman started taking courses at West Texas State University, where she received her bachelors degree and later the masters degree.

"My two children were small during the early years, and it proved to be quite a problem trying to study and keep up with school work while caring for two youngsters too," she said.

The Goodman children, Kenneth and Shirley, are married now and have their own families. Both live in Amarillo.

Kenneth is an attorney in Amarillo since receiving his bachelors degree at WTSU and completing law school in Austin. He is president of the Amarillo Abstract Company and co-owner of the C-N Boat Shop.

Kenneth and his wife, Peggy, have four daughters, Martha Ann, Cindy, Jackie and Marilyn. Peggy, who was raised at Ralls, Texas received her degree from McMurray College in Abilene.

The Goodmans daughter, Shirley, received both the bachelors and masters degree from West Texas State University

and is currently a teacher in Oakdale Elementary School in Amarillo.

Shirley and her husband, Bryce Slack, also have four children. They are Lynette, Michael, Jimmy and Lori. Mr. Slack, son of Mr. and Mrs. Burney Slack of Canyon, commutes daily to Canyon where he is a sixth grade mathematics teacher in the Canyon Elementary School.

"I enjoy teaching and getting to know the youngsters," said Mrs. Goodman, who has taught both the first and third grades at Canyon Elementary School.

A teacher in the local school system for a period of 23 years, "I've often had the opportunity to teach whole families of children, and it's such a pleasure to see what they have become when they're grown, of course a few disappoint you too," she stated.

Former school students have contributed a variety of articles which decorate the Goodman home at 2418 9th Avenue. A special what-not shelf is located in the living room and the shelves are filled with a variety of gifts from "my children at school" according to Mrs. Goodman.

One of Mrs. Goodman's prized collections includes some 50 unusual teaspoons from all over the world. The Goodman's have added spoons to the collections from their own travels through the United States and Canada and former school children who have travelled abroad have sent back spoons from England, Thailand and many other points of the globe.

"This summer, my husband, Ken, and I are planning to make a trip to New York to see the World's Fair again, we saw it when it was in Seattle," says Mrs. Goodman. This will be their third trip to New York State in their summer travels, they have formerly visited almost all of the United States with the exception of those in northern New England area.

"We were planning to take in Bermuda last summer, and already had our reservations made when we found that this house was for sale," says Mrs. Goodman. "We stopped by to look at the house (2418 9th Avenue) and fell so in love with it that we cancelled our trip and within a few days were settling sale papers on it."

The brick home with a curved driveway and front-lawn garage is built for ease of storage and entertaining. An entry hall exits to the livingroom where Mrs. Goodman has her at-home desk situated for grading papers while she listens to her favorite music. A large

brick fireplace covers one wall of the livingroom and extends, with a short planter, midway into the room as a division from the formal dining area.

Wood panelling highlights the wall storage closets throughout the home and are used for kitchen cabinets. The kitchen itself is U-shaped with built-in appliances in a light mint green which complements the dark green flecked counter top and workspace. Two pantry closets are built into the kitchen design and a small snack bar, which extends to a full buffet-size table, is built into the kitchen counter. The extending snack bar can be used to separate the open kitchen from the dining area and "we plan to someday build a screen which will divide the area from the entertainment section" comments Mrs. Goodman.

On the west end of the home is the guest bedroom which also serves as Mr. Goodman's office, where he keeps records on the couple's rental properties. A paneled den is divided from the dining area with a wall planter and a short entry hall leads from the den to the master bedroom.

One of the home's features is the master bedroom which has its own bath and built-in dressing room, with a large closet and built-in chest storage. The dressing room is divided from the bedroom by a half-wall.

"The dressing room makes it so handy for us to get ready to go about our business each day, and being separated from the bedroom is a real convenience," commented Mrs. Goodman.

"One of the things that we really enjoy is entertaining our friends," said Mrs. Goodman as she pointed out the large covered patio which adjoins the home. "My husband is the family green thumb. He spends a great deal of his time working with flowers in the yard. This spring he has set out 65 dahlia bulbs, 35 rosebushes, and has about 93 varieties of iris. His jonquils are blooming now too."

Active as a homemaker, entertainer and teacher, Mrs. Goodman also takes time for hobbies like reading, taking pictures on trips and of her own family, and keeping a large scrapbook up to date.

"I have kept a diary since I was about 17 years old, and it's a good record for my own personal use," commented Mrs. Goodman.

The Goodmans are members of the First Baptist Church of Canyon where she is active in the Woman's Guild, for working women, sings in the choir, and is secretary for the adult class II.

As with a majority of teachers, Mrs. Goodman is active in the Classroom Teachers Association and works in the Parent-Teacher Organization. She also is a member of the Sue Hite Club and both are active in the Schooner Club and the Canyon Garden Club. Mr. Goodman is the incoming president of the Garden Club, and plans to enter several specimens in the club's spring flower show in May.

"I enjoy cooking and espe-

cially like to fix casserole dishes because they are convenient for a working woman like myself," commented Mrs. Goodman, who has taught a total of 33 years.

Her Chicken Casserole recipe follows:

**CHICKEN CASSEROLE**

Boil a one pound chicken until done, then cool and remove from bones, chop up the chicken meat into small pieces, and combine with:

- 1 small onion minced
- 1 small can of pimento
- 1/2 cup of minced celery
- 1/2 pound cheese

Mix the sauce ingredients and place in casserole dish. For top layer pour on a can of condensed mushroom soup. Bake slowly in oven for about 40 minutes. Be sure to keep dish moist enough by adding small amounts of broth as needed. Bake from 45 minutes to an hour in a 325 degree oven.

MRS. A. K. GOODMAN who has taught in the Canyon Elementary School for a period of 23 years took time out last week to share one of her favorite recipes with our readers. The recipe Chicken Casserole is especially convenient and delicious for a quick meal, and "working women will find it extra good for this reason" she said. Mrs. Goodman, mother of two, currently is a third grade teacher at Canyon Elementary School.

**SPEED READING COURSE BEGINS APRIL 16 IN CANYON**

A course in speed reading and comprehension will be offered to the general public in the Canyon area beginning Thursday, April 16. The course will be held in the Baptist Student Union from 7 to 9:30 each Thursday evening for eight class meetings - a total of 20 hours of formal instruction.

Rudy Horak, the instructor, has taught the course at Amarillo College for the past eight years, in addition to having presented it to the employees of various business firms. The course enables the average student to triple his reading rate and considerably improve his comprehension.

Some of the principles and techniques covered in the course are the following:

1. Freedom from "word by word" reading.
2. The development of a "groupword" reading habit (phrases, clauses, and short sentences) by use of the tachistoscope, a machine which projects groups of words and digits on a screen.
3. Reducing "fixation time" when focusing the eyes on print.
4. Enlarging the vocabulary.
5. Learning to read "actively", and in a critical sense, instead of simply absorbing print.

Registration for the course will be at 7 p.m. Thursday, April 16 in the Baptist Student Union. The first class will be held immediately following registration. The fee is \$20.00 per person, and the cost of the textbook is \$3.00, payable at the time of registration.

### Chamber Of Commerce Corner

Nothing happens until somebody sells something. Let me repeat this again, "NOTHING HAPPENS UNTIL SOMEBODY SELLS SOMETHING."

The fact that somebody sells something explains our free enterprise system of life and freedom to make a living and do what we enjoy the most. If nothing was ever sold, our standard of living would be very primitive.

The standard of living is becoming higher and higher all over the world and the main reason is the initiative of people producing and selling. We become very complacent about our surroundings and take everything for granted. We all spend too much time looking back and know where we were; but do not know where we are going. We all reach a low ebb at different times and usually want to blame someone else for our failures. We have lots of things to sell and nothing will happen until we start selling. Evidently everyone enjoys living here and if they don't enjoy it will move to another community. Can you think of ten good reasons why you should want to live in Canyon and how to sell others to buy stock in our town. If you are not happy, maybe it's your own fault. It's a pity that happiness isn't as easy to find as trouble.

In trying to think of ten reasons why you should live in Canyon; I would say that being close to a metropolitan area is one of our greatest assets. We are only 16 miles from Amarillo; which is one of the best cities in Texas. This makes Canyon a choice residential area. Canyon and Amarillo are both growing and new families are attracted to this area each day. Towns farther away from the metropolitan areas are not growing and the young people are migrating to the larger cities.

The second reason is that the best people in the world live in this county. We have the lowest percentage of foreign born living in our county. The average in Texas is 3.1% and in Randall County is 0.7. We have the highest percentage of persons 14 to 17 years of age in school. The average in other Texas counties are 84.0% and in our county is 93.7%. We have the highest percentage of persons 25 years and over that have completed 12.6 school years. In the rest of Texas number of school years completed is 10.4 years. We also have the highest percentage of married couples who own their own household.

The third reason I like to live here is our climate. We have had a bad weather image to others around us; but this image is not true. Bad publicity caused by the dust storms in the 30's and about every 20 years we will have a damaging ice storm. It is proven from industries and different type of workmen that only between 7 to 10 days are lost due to weather. Also according to U.S. Air Force records at Amarillo Air Force Base this area has 360 days annually flying weather. We have a yearly average temperature of 57 degrees and an annual rainfall of 19.93 inches. Low humidity and a nice southwestern breeze makes our summer nights cool and pleasant. Being able to sleep and work are the two most important things in life. We are at the foothills of the Rocky Mountains with an altitude of from 3500 to 3700 and our climate as a whole is marvelous in comparison to many, many other sections of the United States. The fourth reason I have

picked is that we are the educational center of the Panhandle. Canyon is the home of W.T. S. University; which is a 4-year co-educational state-supported institution serving the southwestern Great Plains area since 1910. It is expected that the University will double its enrollment in the next six years. One high, one junior high and an elementary school, all of excellence are located in Canyon. These schools are a great asset to any residential and industrial area. Churches of all denominations and a fine accredited hospital go hand in hand with these institutions.

Plenty of water is my fifth reason. We have approximately 100,000 acres of farm land in our county under irrigation and we are close to a large supply of shallow underground water of which the city of Canyon uses for its needs. Amarillo is also using water from underground sources in Randall County. The Canadian River dam will be completed in a little more than a year, which will even make our water supply greater.

The sixth reason why we enjoy living in Canyon and Randall County is that we are the recreational center for the Panhandle Plains area. All around us claim it and are actually showing more interest than we are. People from all over the United States and foreign countries are coming here to visit Palo Duro State Park, Buffalo Lake and the Panhandle-Plains Historical Museum. We hope to show some more visible signs of selling these attractions; which means very much to the economy of our town and county.

The seventh reason for living here is we are centrally located in the United States. It is easy to choose vacation trips to many different sections of the U.S. and not have to travel over three days at the most. After you get back you are so proud of home that you feel like never leaving again.

The eighth reason is the accessibility to good transportation. Canyon is served by the Santa Fe Railroad and buses to all major points. Amarillo Municipal airport is only 35 minutes to all major air lines. Highways 60 & 87 run through our city, and an expressway to Amarillo, in 15 minutes, will connect you to Interstate Highway 40 or Highway 66 which is one of the most traveled highways in the United States.

The ninth reason in bragging about our town is that we are in the center of the 9th and 10th richest metropolitan areas in Texas. Most of the towns in our Panhandle area are growing each year and increasing opportunities are resulting from this growth which comprises the north edge of Texas Panhandle south to Lubbock.

The tenth reason is that we have a great potential for continued progress due to our location, people and the natural resources around us. Oil, gas, electricity, water and good grass land and farms to supply industry and the great southwest area. Combine this with recreational area, educational facilities, culture and good climate we have everything to sell others. I will say again, "NOTHING HAPPENS UNTIL SOMEBODY SELLS SOMETHING" and if you think you can't sell our town start counting your blessings and you will realize how lucky you are to live in this area.

I will close with this thought: HAPPINESS IS MORE ENJOYABLE WHEN IT IS SHARED WITH SOMEBODY ELSE.

Charlie Donnell

## JIM LANGDON--A WINNER!

Railroad Commissioner Jim Langdon is a 49-year-old native Texan with a winning record in public office. When John Connally appointed him to the Railroad Commission, the Governor said:

"I have for several weeks been attempting to find a man I consider to have outstanding ability, integrity and honor... I am happy we have found that man -- Judge Jim C. Langdon."

Jim Langdon has fully lived up to Governor Connally's expectations. He has conducted his office in the spirit of Governor Jim Hogg, who had the Commission set up in 1891 to look after the public interest in railroad and freight rates. It now regulates also truck and bus rates and the production of oil and gas. Judge Langdon will continue to keep transportation rates in line and see to it that our oil reserves are protected against waste and greed. This will help keep down Texas gasoline prices, already among the lowest in the nation.

Jim Langdon was elected District Judge twice and re-elected Chief Justice of the El Paso Court of Civil Appeals.

### ON THE OTHER HAND--

Jim Langdon's Opponent Is a 10-Time Loser!

Jesse Owens, 69-year-old attorney, is still running for office after 38 years and TEN DEFEATS. He has lost the following races:

- 1926--Defeated for Sheriff of Foard County by L. D. Campbell.
- 1930--Defeated for District Attorney by John Meyers.
- 1932--Defeated for District Attorney by Ed Gossett.
- 1940--Defeated for District Attorney by T. Gene Rogers.
- 1946--Defeated for Court of Criminal Appeals by Tom L. Beauchamp.
- 1952--Defeated for Court of Criminal Appeals by K. K. Woodley.
- 1956--Defeated for Court of Criminal Appeals by W. A. Morrison.
- 1958--Defeated for District Judge by Tom Davis.
- 1960--Defeated for Court of Civil Appeals by James Denton.
- 1962--Defeated for Texas Supreme Court by Meade F. Griffin.

## Religious Role In Education Is Emphasized At Dedication

The place of religion in education was stressed Wednesday night of last week by Emil Rassman as he spoke at dedication for the new Episcopal Student Center and Chapel at West Texas State University.

Rassman, a Midland attorney and member of the Texas State Teachers Colleges board of regents, expressed the hope that the center "may give the young people of the fine institution which it now serves, the wisdom and light to seek and find the truth."

Rassman said it is the task of the church to orient sci-

tific proof with theological truth, to balance reason by faith, to inculcate Christian principles as an inherent part of education, to shed light and understanding on man's role in a changing world.

Officiating at the dedication of the new student center and its Chapel of St. Andrew was the Rt. Rev. George H. Quarterman, bishop of the Diocese of Northwest Texas.

He was assisted by the Rev. Ralph E. Macy, Episcopal chaplain at Texas Tech, and the Rev. James C. Soutar, first chaplain in residence to minister to the new WTSU center.

Two other members of the board of regents were present for the dedication. They were Newton Gresham of Houston, board president, and Clayton Heare, Amarillo.

Shown here at the new Episcopal student center and Chapel of St. Andrew at West Texas State University are Emil Rassman, principal

speaker; Rev. James C. Soutar, chaplain; and the Rt. Rev. George H. Quarterman of Amarillo, bishop of the Diocese of Northwest Texas.
